

Allergen Matrix

Dishes containing any of the 14 common allergens are noted in this guide. A dish marked as “M/C” means that, although these dishes do not contain the listed allergen as an ingredient, they are produced in an environment where the allergen is present. Please note that although we have stringent processes in place, we use many of these ingredients in our busy kitchen/cooking processes or some items may be cooked in multi-purpose friers so we cannot guarantee that our dishes are 100% free of traces of these allergens. Please let us know if you have any food allergies or intolerances so we can assist and talk through our cooking process of any dish.
